PROFILE

Computer Science student passionate about technology, problem-solving, and building practical solutions. Experienced in Python, web development, and Arduino, with strong troubleshooting and communication skills developed through hands-on IT support in school environments. Driven by curiosity about how systems work and a desire to build things that make a difference.

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Computer Science - Lebanese International University (LIU) Sept 2025 - Present

Full Stack Web Development - DevArabic (Mike Majdalani) Completed

Intensive course covering HTML5, CSS3, JavaScript, React, and Firebase. Built a full e-commerce application with responsive design, authentication, database management, and Git workflows.

EXPERIENCE

Angular Developer Intern - *Softwave* Sept 2025 - Oct 2025

- Built a bus ticketing web app with Angular and TypeScript, featuring real-time schedules, ticket purchasing, and a responsive UI using Angular Material.
- Applied Angular core concepts including routing, reactive forms, and state management; collaborated via Git/GitHub for version control and code reviews.

IT Support - *Batroun School* 2024 - Present

- Maintained school IT infrastructure and provided technical support to staff and students, minimizing downtime.
- Delivered training workshops and implemented IT security policies to improve system efficiency and user proficiency.

System Trainer & Technical Support - *E-School Beirut* Aug 2024 - Dec 2024

- Delivered employee training on organizational systems and resolved issues promptly to maintain uninterrupted workflows.
- Created technical documentation and user manuals to streamline troubleshooting and facilitate system adoption.

SKILLS

Frontend	HTML, CSS, JavaScript, TypeScript, Angular, ReactJS
Backend	Node.js, Python
